INVESTING IN THE FUTURE

Partners for Success!

Andalusia Holding started as a leading business entity in the capital of UAE, Abu Dhabi. The group was established as a subsequent step to many pioneer projects and success stories within the country and abroad; which prompted for the establishment of this economic entity to become one of the leading platforms for business development and integration of many sectors, and a contributing part for improving the efficiency and performance of its subsidiaries, by providing creative solutions and enhancing its strengths, in a way that guarantees higher returns for these companies in addition to community and country.

Through years of experience, our business rules are based on international standards in investment, evaluating opportunities, implementing and managing projects, in accordance with transparency and full openness to modern management techniques. We establish successful relationships with multinational companies, and follow a strict risk assessment policy.

Andalusia is working on developing its business vertically, as it aims to expand and upgrade its currently active business sectors (engineering, contracting, manufacturing, international trading, media, sustainability and renewable energy). It also works on expanding business horizontally and enter into new promising and professional sectors according to group's business development & investment plans.

Our Vision

We strive to achieve sustainable value in our endeavors, both for the communities we serve and the society to which we belong. This enhances our standing as one of the leading and established economic groups, contributing to the development of both our group's operations and the wider community. Such efforts position us as a preferred partner for institutional investors, governments, and corporations, enabling us to play a role in driving economic progress towards further development and growth.

Our Mission

To achieve integration and sustainability in all of our business goals and practices, utilizing the investment in developing human competencies and technical aspects, to upgrade working methods and techniques, and provide timely decision-making consultancy.

CEO Message

Community investment remains the core of what we do, and what we have done.

Here at Andalusia Holding, we seek to add sustainable value for society, and maintain our commitment to this generous country and its residents. Being an Emirati business group, whose scope of work is in the sectors of engineering, contracting, manufacturing, international trading, media, renewable energy and sustainability, we are aware of the magnitude of the challenges posed by working in such competitive internal market that pushes you to provide the best. We also know how small opportunities can turn into great success. That is why we make sure that we have all the tools necessary to develop and grow in various directions. Our presence in the center of Abu Dhabi, where well established business relationships with various international markets can help us achieve our goals.

Our goal has always been to contribute significantly to the economy of the Emirate of Abu Dhabi, and to improve the quality of life of its residents, through our role as a catalyst for growth, that provide full support to achieve a developed and sustainable future.

We are proud of what we have achieved so far, with our footprint in various sectors. These successes are a strong motivation for investors to diversify strategically, and contribute to new projects. We believe that investing in emerging projects will finally bear fruit one day.
